

Firefly the Complete Game

(10th Anniversary Collector's Edition + Holo BDH, playing with all expansions)

My combined rules summary version 1 (latest on [Gdocs](#))

From physical rulebook + [GF9 rulebook PDFs](#) + [GF9 FAQ 4.1](#) + checks vs. Big Damn Rulebook thru **9-June-2024**

Objective: accomplish the Goals on the Story Card.

Setup (contents inventory @ https://docs.google.com/spreadsheets/d/1M25hZsUfTZ5dggDFDrmy3Ywwy2_2K4Nh89397mipjJY/edit?usp=sharing)

1. If *Flying Solo* & want a **Campaign**, see rulebook p56 for Campaign Setup, During Play and post-game.

2. Optionally include none/some/all of the 8  **Advanced Rules** (backs of blue Solo Setup cards) on rulebook p57: **Alternate Alliance/Corvette/Reaper, Contact Quirks Deal/Work, Lone Targets, Lost Little Lambs, Wolf at Your Door**

3. Unroll the  **Whole Damn 'Verse Mat** = the **Map**. Note **Sectors** (spaces) for **Alliance Space** (blue border), **Border Space** (yellow border) and **Rim Space** (red border). Also note **Uroboros Belt** (4 Sectors outside Blue Sun), **Motherlode** (2 Sectors in Red Sun), **Reaver Space** (3 Sectors around Burnham in NW) & names of **Suns, Planets, Contacts & Supply locations**. A **Planetary Sector** contains a *named planet, Space Bazaar or Cortex Relay*.

4. Setup card decks:

- a. Take the 7 **Supply Decks** ( *Beaumonde*,  *Meridian*,  *Osiris Shipworks*,  *Persephone*,  *Regina*,  *Silverhold*,

Space Bazaar), separately shuffle facedown & place nearby with room for discards. Note their respective locations on the Map. Each contains a mix of **Crew / Gear / Ship Upgrade / Drive Core** cards. *If ever run out, do NOT reshuffle; just means everything is Consider-able.*

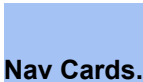

- b. Take the 9 **Contact/Job Decks** ( *Amnon Duul*,  *Badger*,  *Fanty & Mingo*,  *Harken*,  *Lord Harrow*,  *Magistrate Higgins*,

 *Mr. Universe*,  *Niska*,  *Patience*), separately shuffle facedown (Contact side up, Job side down) & place nearby with room for discards. Note SW icons for their respective locations on the Map. Each contains a mix of **Job types**. *If ever run out, do NOT reshuffle (means all Jobs Completed = either in Player possession or Removed from Play).*

- c. If playing with *Capers*, take the  **Capers deck**, shuffle facedown & place nearby. Make sure Supply deck cards for Saffron & all her aliases are replaced with the ones that say **Deceptive**. **Deceptive** Crew are never **Removed from Play**; instead they're reshuffled into their Supply deck. For game FX, the *Capers* deck is NOT a Contact/Job deck, and Saffron is NOT a Contact (though they act similarly).

- d. Take the  **Bounty cards**, shuffle facedown & place nearby. Draw 3 faceup as the **Most Wanted List**. These will update after certain **WORK** Actions or certain **Nav** cards.

- e. Take the  **Misbehave Deck**, shuffle facedown & place nearby with room for discards. If the **RESHUFFLE** cards ever enter discard pile, immediately reshuffle discards.

- f. Take the  **Alliance Alert** cards, shuffle facedown, place nearby. These may come into play from certain  **Misbehave Cards** /  **Nav Cards**. When one comes into play, its special rule is in effect.

5. Take the  /  **Alliance / Reaver Contact Event** and **Corvette Contact Event** tiles & place nearby.

6. Take the 110  **Money / Credits** or **homemade Lil' Money cash tokens** (15x \$5K, 20x \$2K, 50x \$1K, 25x \$500, 40x \$100) and place nearby as the **Bank**.

7. Take the **12d6** & place nearby. Decide what rolls of  will be (see **Skill Tests**).

Pick a **Set Up card** (default =  **STANDARD GAME SET UP**, if solo play, use  **FLYING SOLO - GAME SET UP**), boxing those unused.

- If 1st section is GOAL OF THE GAME, resolve step 4 NOW, then return here.
- Follow each of card's sections (brown = use rules below, green/blue/gray = use rules on card; note card may reorder, rename or add to sections from below).

1. NAV DECKS

- Take the 3 **Nav Decks** ( **Alliance Space**,  **Border Space**,  **Rim Space**) & place nearby with room for discards. If ever run out, reshuffle discards.
- If NOT playing with *Kalidasa* & 3P+, for each deck...
 - From **Alliance Space**, fish out & the *Alliance Cruiser* RESHUFFLE card & place in discard pile..
 - From **Border Space**, fish out the  *Reaver Cutter* RESHUFFLE card & place in discard pile..
 - From **Rim Space**, fish out the 2  *Reaver Cutter* RESHUFFLE cards. Box 1, place other in discard pile.
Else just box 1 of the 2 *Reaver Cutter* RESHUFFLE cards from **Rim Space** deck.
- Separately shuffle these decks facedown. If a RESHUFFLE card ever enters discard pile from the draw deck, immediately reshuffle discards.

2. ALLIANCE & REAVER SHIPS

- Take the **Alliance Cruiser mini** (w/ a **Flight stand**) & place in *Londinium's* sector (Map center). The Contact *Commander Harken* is wherever the Cruiser is.
- Take the **Operative's Corvette mini** (w/ a **Flight stand**) & place in Sector with *Cortex Relay 2* (Map SE).
- Take the 3 **Reaver Cutter minis** (each w/ a **Flight stand**).
 - If playing with *Blue Sun*, place 1 in each *Reaver Space* Sector (Map NW).
 - Else place 1 in sector with Firefly logo (Map NE) & box the other 2.

3. CHOOSE SHIPS & LEADERS (setup 2-5P ...*Artful Dodger* was advertised as also being a 5th Player expansion)

- Take the following as a supply:
 -  **Leader Cards**. If playing with **Big Damn Hero** Leader cards, those replace the **normal Leader** cards (which are **Removed from Play**) unless using an Optional Variant from rulebook p28.

ii.

Ship Cards,

Drive Core cards &

Starting Ship Upgrade cards.

b. Each Player takes a **Player tray** full of tokens:

Alert,

Cargo / Contraband,

Complete,

Disgruntled,

Fuel,

Haven / Destination (stored with Leader cards),

Parts,

Passenger / Fugitive,

Wanted,

Warrant / Goal.

c. If not *Flying Solo*: all Players roll a die. Hi-est = takes the

Dinosaur token. **Turn Order** = clockwise from this Player, passing the

as a reminder.

d. In Turn Order, each Player picks a **Leader card**. If you pick a Leader that is also a Crew Card somewhere, that Crew card is **Removed from Play**.

e. In reverse Turn Order, each Player picks a **Ship card** (noting **Max Crew** [including Leader] on E, **Storage** spaces & slots [for **Drive Core & Upgrades**] along S) with...

i. A matching **d6** & "**Firefly**" **Ship mini** (w/ a **Flight stand**).

ii. A **Drive core card**:

1. *Bonanza*, *Bonnie Mae*, *Serenity*, *Yun Qi* (Series 3) must use a generic card (*Radion Accelerator Mark I*), which MAY be swapped out later.
2. *Artful Dodger*, *Esmeralda*, *Jetwash* (Series 3 mod & IV) must start with their own named card, which may only be used on that Ship, but MAY be swapped out later.
3. *Interceptor*, *Restless Sole* & *SS Walden* must use their **Unique Core** named card, which may only be used on that Ship & may NOT be swapped out later.

iii. Optional **Starting Ship Upgrade card(s)**.

1. *Esmeralda* & *Jetwash* each have 2 cards available that if desired must be bought during STARTING SUPPLIES (or free if playing Setup card *The Browncoat Way*). Leader Corbin's CHOP SHOP ability is NOT usable here.
2. *All other Ships* (except *Artful Dodger*) each have 1 card available which may be taken for free if desired. Note *Interceptor* & *Walden* cards are 2-sided, so pick 1 side to use.
3. Any cards NOT taken are **Removed from Play**.

f. In Turn Order. each Player places their **Firefly mini** on the mat in any Sector with no other Firefly mini in it.

4. GOAL OF THE GAME

a. Pick a **Story card**: (box unused, except Solo Story cards with Advanced Rules [on flipside] in play)

i. If 2P+, one of the 's (default *FIRST TIME IN THE CAPTAIN'S CHAIR*).:

ii. Else if *Flying Solo*, either...

1. one of the 's.

2. or one of the 's (excluding *ACES UP YOUR SLEEVE*, *IT'S ALL IN WHO YOU KNOW*, *THE GREAT RECESSION*, *SMUGGLER'S BLUES*, , *THE SCAVENGER'S 'VERSE*, *THE WELL'S RUN DRY*). If A *RARE SPECIMEN INDEED*, *DESPERADOES*, *RESPECTABLE PERSONS OF BUSINESS*, **Declare Last Call / Send Out Invites** before discarding last **Game Length Token**.

iii. Note the card's GOAL sections for win conditions (some solo cards instead have SCORING THE GAME). If a series of Goals on different Planets,

may mark their order with numbered  **Destination** tokens in the Goals' Sectors.

b. If it has a SET-UP section, it overrules rest of Set Up card. If Havens are called for...

- i. Each Player takes the  **Haven token** matching their Ship.
- ii. After choosing **Leaders**, places **Haven** (instead of Ship mini) according to the Story card (usually any Planetary Sector that's not a Supply Planet or Contact Planet, that has no other Haven token there).
- iii. Unless Story card says otherwise, place your **Ship mini** at your Haven.

5. STARTING SUPPLIES

- a. Each Player takes 3K **Credits** (place near Ship Card), 6 **Fuel** & 2 **Parts** (all placed to **Storage**).
- b. Buy any optional **Starting Ship Upgrade card(s)**, boxing all un-bought.

6. STARTING JOBS

- a. Each Player draws 1 card from each Job deck (1st game only *Ammon Duul*, *Harken*, *Patience* decks).
 - i. If told to draw from **Capers**, and draw RESHUFFLE, ignore it & reshuffle.
- b. Each Player discards down to **Max Hand Size** = 3 (or 0-2 if desired), discards other Jobs they don't want.

7. PRIMING THE PUMP

- a. For each Supply deck, draw & **discard** 3 cards. Note **Remove from Play** is different.
- b. If *Flying Solo*...
 - i. If want **No Sure Things in Life**, draw 5 cards *facedown* from *each* Supply & *each* Contact deck. These cards are **Removed from Play**.
 - ii. **Starting Resources:** may buy up to \$1000 worth of revealed Supply cards (Crew, Gear, Ship Upgrades, Drive Cores). Leader Abilities apply. Replace any purchased cards with new draws.
 - iii. Setup **Game Timer**: use a dial or take 20  & place nearby as **Game Length tokens** (more for easier game). If want *Unpredictable Timer*, take #1 thru #4  (more if desired) and for each replace 1  arranged in either ascending or random order, with the very last token being a .

Turn Sequence

If ever in same space as Alliance Cruiser mini & you are Outlaw Ship, resolve **Alliance Contact Event**. Only have to resolve 1 / Sector unless leaves & returns, or you move & it follows.

Whenever **Corvette** moves & ends in a Sector with **Outlaw Ship**, resolve **Corvette Contact Event**.

At any time...

- may use the **Meridian Credit Exchange** to send \$ to other Player(s) in any Sector.
- may rearrange your **Storage**, including right after an Action is declared or a card is drawn, but before it starts resolving.

In **Turn Order**, each **Player** takes a **Turn**:

- Resolve any **Start of Turn FX**.
- If you start Turn in same Sector as a **Reaver Cutter mini**...
 - If **Corvette** there, teleport Reaver Cutter to any Reaver Starting Sector. Else resolve **Reaver Contact Event**.
- May take 2 **Actions** (both must be unique). Throughout, *for free* may also do the following on your Turn...
 - **Interact** (Trade or Hire) with other Players in your Sector.
 - **Dump** or **Dropoff** or **Dismiss** (including mid-Action)
- When done with 2nd Action,
 - If 2P+, pass the  **Dinosaur** clockwise. You can browse discard piles when not your Turn.
 - Else if *Flying Solo*:
 - **Send a Wave**: either:
 - if didn't **DEAL**, pick any **Contact** Deck (NOT at your current Location) & add 3 cards to its discard pile.
 - if didn't **BUY**, pick any **Supply** Deck (NOT at your current Location) & add 3 cards to its discard pile.
 - **Decrement Game Timer**: discard 1 .
 - If this was last one, take a final Turn, then check Story Card for goals/winning.
 - Else if *Unpredictable Timer* & discarded , roll d6. If <= the token's #, resolve as if it was the last .
 - Resolve any **After-Turn FX**.

ACTIONS

FLY either

- **Mosey:** move Firefly mini 1 Sector orthogonally.
- **Full Burn:** discard 1 Fuel (+1 per **HEAVY LOAD** Job in effect, even if your **Drive Core** doesn't require Fuel).
 - move Firefly mini 1 Sector orthogonally, then draw & resolve a corresponding **Nav Card**.
 - If **Keep Flying**, may repeat until first of (halted by a card) or (you reach Drive Core card's **Max Range**).

BUY if in a Sector with a Supply Planet (Map will have name of Supply deck). Either:

- **Buy Supply cards, Fuel &/or Parts:**
 - **Cards:** **Consider** 3 / Buy 0-2.
 - Buy **Crew** limited by Ship's Max Crew stat.
 - If draw one of Saffron's aliases...
 - If playing with Capers expansion, if does NOT have red DECEPTIVE, Remove from Play & redraw.
 - Else if NOT playing with Capers, if DOES have red DECEPTIVE, Remove from Play & redraw.
 - (house rule so I don't have to fish out any Saffron cards).
 - Only 1 Player at a time has Saffron. So when new Player takes her aboard, old Player must follow card instructions to discard.
 - If Deceptive Crew ever leaves Ship for any reason, immediately lose any/all Active Capers. If mid-**WORK**, may attempt to Succeed, but don't then discard it.
 - **LAWMEN** have Hiring Cost = Cut = \$0
 - Buy **Gear**, unlimited quantity, but can only use if carried by a Crew (e.g. when setting up **WORK** or reacting to a Nav card). Unassigned Gear is Onboard Ship but does not help. Note Skill icons & any green = Keywords (rulebook p27) .. if you discard Gear to gain a keyword, that doesn't carry over beyond satisfying the NEEDS of the Job.
 - Buy **Ship Upgrades** (including **Shuttles**) limited by Ship Card's slots. Discard to make room at any time.
 - Buy **Drive Cores** limited to 1 (discard old) & only if Ship allows swap out (see Setup).
 - May also buy **Fuel** \$100 ea. & **Parts** \$300 ea., paying the Bank.
- **or Crew Shore Leave:** pay the Bank \$100 for each Crew (incl Leader), then discard any  **Disgruntled**.

DEAL =

- Determine which one deck to draw from:
 - Capers deck** - must have DECEPTIVE Crew aboard (Saffron or one of her aliases), Firefly may be in any Sector.
 - Contact/Job deck** - Firefly must be in that Contact Planet's Sector (Map will have its name).
 - Challenge cards** from *Mr. Universe*: if Solid Firefly may be in any Sector, else must be in Mr. Universe's Sector.
- Optionally **Consider** 3 / Accept (keep) 0-2:
 - If **Caper & drew RESHUFFLE card**, *immediately* resolve. If Deceptive Crew **Jumps Ship**, you can still complete this **DEAL** & take Caper(s).
 - Then **Consider** 3 / Accept (keep) 0-2 to your Hand = your **Inactive** Jobs. Must discard down if you exceed **Max Hand Limit**.
 - If Solid with *Patience*, you may Consider 4 of her Jobs
 - Higgins* won't DEAL if Jayne in your Crew.
 - Mr. Universe* provides **Challenge Cards** which do count towards **Max Hand Limit**.
- And if Solid with that Contact, may optionally transact based on \$ in Job card facedown NE:
 - *Amnon Duul, Badger, Niska, Patience:*
 - **Sell Cargo/Contraband** to them.
 - **Load Passengers & Fugitives @ Space Bazaar**, no limit.
 - *Badger:* **Clear all Warrants** for \$1000.
 - *Fanty & Mingo:* **Buy Contraband** from them.
 - *Harken:* **Buy Fuel** from him.

- Lord Harrow: **Buy Cargo** from him.

WORK pick one...

- **Make-Work:** if your Sector has a Planet, take \$200.
- or **Work one stage of an Active Job Card:** note can't WORK a *Higgins* Job if *Jayne* in your Crew.
 - Pick an eligible **Job Card**, either:
 - **Start a new one:**
 - Must be under **Max Hand Limit**. Must be in "pickup/target location".
 - Pick an **Inactive** one from your **Hand** & play faceup before you; it is now one of your **Active** Jobs & *may never be discarded* unless you complete it or suffer **Warrant** Issued midway. *Niska* rule triggers if it's **Job** for him. If you have any **Challenge cards**, you may attach one now.
 - If Job Type NOT *Piracy*, optionally attach a **Challenge card** (slide under right of Active Job). Does NOT count as separate Active Job.
 - **Advance/Finish an existing one:** must be at indicated "deliver/final" Location with "da goods". May NOT attach a Challenge card.
 - If has either **Bonus Job Opportunities** / **Bonus Drop-off** in card E, then if you complete, mark with  & *immediately* take listed \$/Goods *without* having to paying Crew their Cut. Some of these require being in Rival Ship's Sector (Rival must agree to it).
 - Note some SHUTTLES extend range of where you can work, but limited on what you can carry (usually 2 **Storage** spaces, 4 Crew, 0 Ship Upgrades). May only use a SHUTTLE like this for Sectors w/o Reaver Cutter or (if **Outlaw Ship**) Alliance Cruiser/Corvette; ignore Alert tokens in that Sector.
 - Resolve..
 1. Commit which **Crew** / Leader cards will work & be tied up *for only this Action*.
 - a. LAWMEN can't be selected for ILLEGAL Jobs.
 - b. Any Crew not taken **remain onboard Ship** & don't contribute, and aren't affectable by Job's Misbehave / Skill Tests.
 - c. Each Crew can carry 1 **Gear** card (fixed assignment thru-out Job).
 - d. Any Crew **Killed** or **forced back to the Ship** don't contribute, and any carried Gear also returns to the Ship & ceases contributing.
 2. Confirm pre-reqs (if card E says **NEEDS**; could be Skills or a Test). If unmet, can't start / advance the Job. If you discard Gear to gain a keyword, it is ephemeral & does not apply for rest of Action or future Actions. If ILLEGAL Job, all LAWMEN stay Onboard Ship.
 3. Follow **Instructions** on the **Job Card**.
 - a. If a **Challenge card**, attached, note its extra conditions which must also be satisfied for Success.
 - b. If ever 0 Crew left (e.g. all **Killed** or **Returned to Ship**), auto-Boch.
 4. If **Outcome = Success** (i.e. not **Botched** or **Warrant Issued**), the Job is now **Completed**.
 - a. **Reputation**
 - i. Become **Solid** with the Job's Contact (can NEVER become Solid with Saffron, who is not a Contact).
 1. If *Harken*, must NOT have a **Warrant**.
 - ii. If already **Solid**, the Job card is **Removed from Play**. Else slide under your Ship Card with Contact's name & special FX are visible.
 - b. **Get Paid**
 - i. Take \$ from Bank =
 - ii. **Pay** (Job card SE purple, fixed or formula)
 - iii. + any **Bonus** (check Job card SW green). If at least 1 not-**Killed** Crew on Job meets conditions, take extra \$.
 - iv. **Capers** have special bonus if you have the right Saffron alias working the Job.
 - v. If **Solid** w/ ...
 1. *Fanty & Mingo*, bonus \$ if **Job Type = Transport**.
 2. *Lord Harrow*, bonus \$ if **Job Type = Smuggling or Shipping**.
 - c. Even if Pay was \$0, must Pay ALL surviving **Crew** (whether on the Job or aboard Ship, but not Leader) their **Cut** (deduct from Pay). Any Crew not paid becomes **Disgruntled**. LAWMEN have a Cut of \$0, they instead get paid a **Bounty Bonus** (p35).
 5. Morality

- a. If Piracy Job, IMMORAL if Job is SUBJECTIVE & target Ship's Leader is MORAL. Else Job is only IMMORAL if it says so.
- b. If Job is determined to be IMMORAL, **Disgruntle** all Moral Crew.

- or **Advance a Goal from Story Card**: follow card's instructions. If Goal does not require a Skill Test, does not require a WORK Action.

- Take a **GOAL** to your Ship. Not lost if situation changes (e.g. if you needed to be Solid and then lost it).
 - **Misbehave** first if indicated, but w/o abilities that affect Jobs.
 - Skill Tests with Attempt Botched instructions (retry Goal next Turn).
 - **Warrant** Issued (retry Goal next Turn).
- or **Work a Bounty** (Does not count towards Active Mobs. Anyone can Work a Bounty)..either...
 - **Apprehend a Fugitive** on the **Most Wanted List** if in same Sector as Target Fugitive.
 - If Bounty card = Cortex Alert, that is "type" so after 1st Bound you can keep nabbing more before Dropoff.
 - Commit **Crew & Gear** (may not change).
 - Where is target?
 - **In Rival's Crew**: successful **Boarding Test**, then **Showdown** (of Bounty card) vs. Rival Crew.
 - **On Supply Planet**: target must be in discard pile. **Showdown** (of Bounty card) vs. Fugitive's best Skill.
 - **In YOUR Crew (Betray)**: auto-Succeed but **Disgruntle** all Crew except Leader.
 - Successful Apprehend = **Bound by Law**
 - Take Crew card + Bounty card to L of Ship Card.
 - Does NOT count towards max Crew, **Max Active Jobs** or **Storage**. Are not Crew, don't **WORK**, **Showdown** or **Skill Tests**. Ignored for Roll for **Wanted Crew**. If Reavers kill your Passengers/Fugitives, Bound Fugitives are **Removed from Game**.
 - **Deliver/Dropoff Bound Fugitive** at location on Bounty card.
 - Both Fugitive & Bounty card are **Removed from Game**.
 - **Get Paid** as with **Job Card**. LAWMEN each get a **Bounty Bonus**. Cortex Alert is paid 1/instance of type (Bounty Bonus only paid once).
- or **Jump or Rescue a Rival's Bounty** (if in same Sector as Rival's Ship; max 1 Bound Fugitive of 1 Rival per **WORK**)
 - successful **Boarding Test**, then **Showdown** (of Bounty card) vs. Rival Crew. If Cortex Alert, succ = gain ALL fugitives.
 - If success, may declare **Rescue**. Either add to Crew for \$0 or **discard**. Return Bounty card to bottom of draw deck.

Interact

- **Trade**: Buy/sell/trade Crew, Gear, Fuel, Parts, Cargo, Contraband, Ship Upgrades. May haggle outside of normal Turn Order.
- **Hire**: pick another Player's Crew (NOT Leader) with  & pay their Hiring Cost. That Crew **Jumps Ship**; you may take to your Ship & discard .

Dump/Jettison Goods in any Sector.

Dropoff/kickoff Passengers or Fugitives in any Sector with a Planet. If not Mudder, discard to supply. Else if Mudders with INDENTURED, follow card instructions to turn over to Higgins for \$ but counts as IMMORAL Job.

Dismiss Crew (any not Leader) in any Sector with a Planet (discard to their Supply deck), e.g. to make room for new Crew. May not to do this to prevent **Kill**. Discard any .

Thru-out

- **Alliance Contact Event** EACH time you trigger, take the tile & resolve per **Instructions: Pay Fines, Clear Warrants, Seize Contraband & Fugitives** (Hold+Stash), Roll for **Wanted Crew, Full Stop**.
- **Challenge cards:**
 - Slide under an “attached” Job card. May NOT be PIRACY or BOUNTIES, or Active Jobs already started.
 - Apply conditions of Challenge card to the Job. BOTH must be met for Job to be Success. Challenge card pays special additional Reward.
- **Consider** = for indicated deck, look thru its discard pile & choose 0-3 cards. For each discard NOT taken, you may draw 1. May **Buy** 0-2, paying the Bank. Discard all unbought cards faceup.
- **Corvette Contact Event** take the tile & resolve per **Instructions: Remove one Wanted Crew, Discard all Fugitives** (not in Stash), **Full Stop**.
- **Crew card**.. noting...
 - any red = MORAL or DECEPTIVE.
 - any green = **Profession**: COMPANION, GRIFTER, LAWMAN, MECHANIC, MEDIC, MERC, PILOT, SOLDIER
 - purple = **cost to hire** as well as **Cut** = pay for a Successful Job.
 - If  by cost, they are **Wanted**, making you **Outlaw Ship**.
 - Rulebook p28 for BDH cards in supply decks.
 - **Skill** icons on W.
- **Discard** = return tokens to supply or cards faceup to discard pile. If Deceptive Crew, immediately discard all Active Capers.
- **Disgruntled** = take a  & check...
 - If Leader gains 2nd , discard both, then fire all **Crew** (discard to their Supply decks ; <<keep all Gear?>>)
 - If Crew gains 1st , are vulnerable to **Hire**.
 - If Crew gains 2nd , they **Jump Ship**:
 - If you have SHUTTLE & d6 <= #Crew leaving, discard 1 SHUTTLE.
 - Crew leaving are immediately discarded.
- **Goods** = any of    .
- **Job Card** = in Hand is **Inactive** (see Max Hand Size); faceup before you is **Active** (see **Max Active Jobs**).
 - Note the **Job Type(s)** (some game FX trigger off this): Different types:
 - *Shipping* (load/deliver Cargo)
 - *Transport* (pickup/dropoff Passengers/Fugitives)
 - *Smuggling* (pickup/dropoff Contraband.
 - *Crime* (travel)
 - *Salvage Op*
 - *Caper* (Saffron/Deceptive Crew)
 - *Piracy*
 - Jobs are also one or more of:
 - **LEGAL**
 - **ILLEGAL** (requires **Misbehave**)
 - **IMMORAL** (**Disgruntles** Moral Crew ...see **WORK**).
 - E will have either any

- **NEEDS** = pre-reqs to **WORK** the Job
 - or special rules
 - or **Bonus Job Opportunities / Bonus Drop-off**.
- Then **Instructions** to resolve.
- **Kill** = can't preempt with **Dismiss**. CAN try to "save" if have MEDIC **Crew** or certain Gear / Ship Upgrade. Saved Leaders & Crew **Return to the Ship**.
 - Unsaved **Leaders** become **Disgruntled** then **Return to the Ship**.
 - Unsaved **Crew** are **Removed from Play**. Any **Gear** they had returns to the Ship.
- **Max Active Jobs** = 3 unless buffed (by **Solid** w/ *Magistrate Higgins* or other; if lose Solid discard down to 3).
- **Max Hand Limit/Size** of Inactive Jobs = 3 unless buffed (by **Solid** w/ *Mr. Universe* or other; if lose Solid discard down to 3).
- **Misbehave Card** = to resolve..
 - **Ace?** Check card bottom. If conditions met, insta-**Proceed** past this card.
 - Else resolve one of the #d Options (some with pre-reqs); pick one.
 - Follow **Instructions** on card. Outcome will either be:
 - **Proceed** = done with this card, goto next. If this was last Misbehave card, entire Attempt succeeds = see Job/other card for what next.
 - **Attempt Botched** = fail the entire Attempt. Lose all accumulated Proceeds. Can retry from scratch on next Turn.
 - **Warrant Issued** = fail the entire Attempt as with Botched. Then resolve **Issued** per **Warrant**.
- **Move Firefly** = check destination Sector (in order)
 - has **Reaver Cutter**?
 - If **Full Burn** or **Evade**, Blocked.
 - If **Mosey** & playing with *Blue Sun expansion*, may enter.
 - has  /  Alert tokens? (or  printed on Map) ... skip if using SHUTTLE instead of moving Ship in.
 - Resolve all  before .
 - Roll d6 (not a Test so no mods). If <= #tokens, Player to right chooses a {Reaver Cutter | Alliance Ship} and moves it into your Sector.
 - (Alliance Ship = Corvette in Border/Rim Space else Cruiser or Corvette in Alliance Space).
 - Ship Upgrade *Long-Range Scanner Array* grants unlimited Alert token resolution in adjacent Sectors during a **FLY** Action (Ships are brought to adjacent Sector not YOUR Sector).
 - If **Outlaw Ship** & destination Sector has **Alliance Cruiser** (or it was just moved into your Sector), immediately resolve **Alliance Contact Event**. If you were **Full Burning**, skip drawing a **Nav Card** and end **FLY**.
 - If **Outlaw Ship** & destination Sector has **Operative's Corvette** (or it was just moved into your Sector), immediately resolve **Corvette Contact Event**.
- **Nav Card**
 - Draw from **Alliance Space** in blue-bordered Sectors, **Border Space** in yellow-bordered, **Rim Space** in red-bordered.
 - If **Options** exist (marked on card E), pick 1. If an Option has **Requires**, you can't pick unless meet those requirements.
 - Resolve the selected Option's text...
 - If *Customs Inspection*, ignore if **Solid** w/ *Harken*.
 - If *Alliance Cruiser*,
 - draw new **Alliance Alert card** & place old one to bottom of deck.
 - Cycle **Most Wanted List**: existing 3 to bottom, then draw 3 new. If Bounty card is for someone **Killed**, **Remove from Game** & redraw.
 - May have **Instructions** keywords.
 - Every Nav card will have eventual Outcome of either:
 - **Keep Flying**: continue current **FLY** Action.
 - **Full Stop**: halt Firefly in current Sector & end current **FLY** Action.
 - **Evade**: move Firefly to adjacent Sector & end current **FLY** Action.

- **Outlaw Ship** = you have outstanding **Warrant(s)** and/or **Contraband, Fugitives, Wanted Crew** aboard.
- **Reaver Contact Event** take the tile & resolve per **Instructions**: either Option 1 (**Kill all Passengers/Fugitives, Skill Test to Kill Crew**) or Option 2 (**Evade** if pre-reqs met).
- **Remove from Play/Game** = if Deceptive Crew, shuffle back into Supply deck. Else box (not discard) the card (e.g. removed Crew/Gear NOT re-BUY-able).
- Rerolls (e.g. Jayne's "Cunning" Hat): ALL rolls of 1 may be rerolled.
- **Skills & Skill Tests**
 - **Skills** = +1 per icon    on eligible Crew / Gear / etc. cards.
 - **Skill Test** = d6+Skills >= Target # to succeed.
 - Roll 6  = explodes.
 - Roll 1  = optionally just 1, or instead one of the optional bad FX on rulebook p53.
 -  **Kosherized Rules** **Kosherized**, means Skills *from eligible Crew cards only*. **Gear** cards can still contribute specials like rerolls, *but no Skill buffs!*
 - If **Bribes** **Bribes**, then before rolling, optionally pay the Bank. **Every \$100** = +1.
 - **Nested Skill Test** = a Skill Test where final result may trigger a 2nd Skill Test.
- **Storage** = Ship card's **Cargo** and **Stash** spaces (vulnerable to different card FX).
 - ½ space for 1 Parts or 1 Fuel. 1 sp for anything else.
- **Wanted Crew** = card has  by cost or  placed on it by cards/Alliance contacts). Makes you **Outlaw Ship**.
 - **Crew is now Wanted** = for each Crew (except Leader) w/o  take a . Vulnerable to **Roll for Wanted Crew**.
 - **Roll for Wanted Crew** = if no Gear/Ship card that prevents, make indicated roll to see if **Dodge** or **Removed from Play/Game**.
- **Warrants**
 - **Issued** =
 - take a  to your Ship card. These are on your Ship, not your Crew, so don't affect **Wanted Crew**.
 - If this was mid-**WORK**ing an Active Job (not say from a Nav card)...
 - Discard that Job (including any **Challenge card**) back to its Contact's discards, & lose any **Solid** with that Contact (box the Job card that tracked Solid).
 - If Job also had **Challenge card**, also lose Solid with *Mr. Universe*, & discard Hand as needed down to new **Max Hand Limit**.
 - Also lose **Solid** with *Harken*, regardless of Contact.
 - If *Niska* Job, also **Kill** a Crew.
 - You are now **Outlaw Ship**.
 - **Clear(ed)** = discard to supply..

Instructions - found on certain cards (**Job**, **Misbehave**, **Nav**) or tiles (**Alliance Contact Event**, **Corvette Contact Event**, **Reaver Contact Event**).

- **Buy**: pay to Bank & take token from supply.
- **Clear Warrants**: resolve as Clear **Warrant**.
- **Crew becomes Wanted**: resolve as **Wanted Crew**.
- **Cut**: see **Lose**.
- **Discard Warrant(s)**: resolve as Clear **Warrant**.
- **Disgruntle(d)**: if **Become**, then for indicated Crew, resolve per **Disgruntled**. If **Remove**, then for indicated Crew discard all their .
- **Divide your Crew** (split up) = if only 1 Crew working/left, auto-Botch. Else form 2 teams of 1+ Crew each.
- **Dodge**: avoid the negative effects (e.g. Capture, **Wanted**).
- **Draw** something:
 - new Alliance Alert Card
 - another 1-2 Misbehave Cards
 - 1 fewer Misbehave card: doesn't count as resolving prior card.
 - Cargo/Contraband, Passengers, \$, Deceptive Crew, Misbehave card ... same as Load ?
- **Deliver**: discard to supply, then resume **Work**.
- **Discard**: same as **Discard**.
- **Dropoff**: discard to supply, then resume **Work**.
- **Full Stop**: as **Full Stop**..
- **Get Paid**: take **Pay** = purple SE is Pay + any **Bonus** = green SW. May have **Bonus Dropoff** for extra \$ or Goods.
- **HEAVY LOAD**: adds to your Fuel cost for Full Burn (even if cost is 0). Multiple Jobs with HEAVY LOAD are cumulative cost!
- **Kill(ed)**: for indicated Crew, resolve as **Kill**. If you get to pick, yes you may choose your Leader.
- **Load** (Cargo, Contraband, Passengers, Fugitives) = take from supply. These are onetime, if later lost, only way to "reload/regain" is via another card's FX. If you took  , you are now **Outlaw Ship**.
- **Lose** something:
 - **1 Solid if able**: if you are Solid with any Contacts, pick one and the Job card tracking Solid is **Removed from Game**.
 - Anything else (**Goods**, **Contraband**, **Passenger/Fugitives**, **Fuel**, **Parts**, **Crew**, **Ship Upgrade**): <<discard or remove from game?>>
- **Misbehave**: count Misbehave card icons.
 - For each icon, resolve an Attempt = draw & resolve 1 **Misbehave Card** at a time.
 - Success = ALL cards resolve with Outcome = **Proceed**. Else Botched / fails, may retry later but start over. You may not "abort" early.
 - Some Leaders and Big Damn Hero(es) have abilities that trigger during Misbehave.
- **Move** a Ship (if *Flying Solo*, use the  **Automated Movement** card instead of below)
 - **(Alliance) Cruiser**: If enters Sector with **Outlaw Ship** (e.g. drew **Nav Card** and it was *Alliance Cruiser* card) that Player immediately resolves **Alliance Contact Event** (don't wait till their next Turn).
 - **Operative's Corvette**
 - Move as indicated by card. May NOT end move in a *Reaver Starting Sector*.
 - If enters Sector with Reaver Cutter mini, move the Reaver Ship to a *Reaver Starting Sector*.
 - If enters Sector with , discard all w/o resolving.
 - If *ends* move in Sector with **Outlaw Ship**, immediately resolve **Corvette Contact Event**.
 - **Reaver Ship/Cutter** ...

- If drew **Nav Card** = *Reaver Cutter*
 - If drew while entering Sector w/ Operative's Corvette, skip resolving the card; just reshuffle normally.
 - Else if destination Sector already has a Reaver Cutter mini there, immediately resolve **Reaver Contact Event** (don't wait till start of next Turn).
- Else
 - Pick any Reaver Cutter mini.
 - Place a  in Sector exiting (>1  in a Sector is ok, even in Reaver Space).
 - Move Reaver Cutter mini as indicated by card. Max 1 Reaver Cutter per Sector.
- **NEEDS**: required pre-requisites like **NEEDS** on a **Job** card.
- **Pay Fines**: pay \$ to Bank (all that you can if insufficient funds; if these were to clear Warrants, they are still cleared).
- **Pickup**: same as **Load**.
- **Place Alert token(s)**  / :
 - if *Flying Solo*, follow the  **Automated Movement** blue card instead of drawn card.
 - There may be multiple  and / or  in same Sector. Resolved during **Move Firefly**.
- **Proceed**: end current **Misbehave Card** & move to next one (or Success if this was the last card).
- **Purchase**: see **Buy**.
- **Remove from Play/Game**: same as **Remove from Play/Game**.
- **Requires**: same as **NEEDS**.
- **Return to Ship**: indicated Crew + their Gear go back to the Ship and are no longer working the Job. See also Remain Onboard the Ship.
- **Roll for Wanted Crew**: resolve as **Wanted Crew**.
- **SHOWDOWN** **WIN** **LOSE** **Showdown** with WIN / LOSE fx:
 - Attacking Player's Ship must be in same Sector as Defending Rival's Ship.
 - Defender may rearrange what's in **Hold** vs. **Stash**.
 - Attacking Player must succeed at **BOARDING TEST**, else immediately end **WORK** (but keep Active Piracy Job).

BOARDING TEST
 6 or  6
 1-5: Attempt Botched
 6+: Boarding Successful

 - Job card's E or
 - Attacker & Defender may allocate **Gear** amongst their **Crews**.
 - Attacker & Defender each pick any one of their **Skills** (totaling entire Crew), then make contested **Skill Tests**.
 - Highest total wins (Defender wins ties). Attacker resolves WIN or LOSE accordingly.
- **Seize(d)**: if Gear, **Remove from Game**. Else if Resources, **discard**.
- **Sell**: discard tokens & take \$ from Bank.
- **Spend**: same as **Pay**.
- **Steal**: one of...
 - Goods...
 - From Rival's **Hold** (NOT **Stash**) to you, up to max allowed by Job.
 - Check available **Storage** & if need to make room, may **Dump** Goods and/or **Dropoff** folk.

- Then may take from Rival to you & end **WORK**.
- Inactive Jobs
 - After Steal, may exceed **Max Hand Size**, but must discard down before end **WORK**.
- **Swap**: <<Goods>>
- **Take** (Goods, Passengers, etc.): same as **Load**.
- **Take \$**: same as **Get Paid** except Job bonuses don't apply.
- **Travel to** = outside current Action, **FLY** to indicated Location.
- **Warrant Issued**: resolve per **Warrant**.
